Soprano
10X

Soprano
10X

Illimited possibilities for all tastes

DESIGN AND USER INTERFACE

- Shiny, frameless, elegant, and uncluttered design
- Capacitive keyboard
- Large 4.3" TFT screen capable of displaying nutritional facts, spot, and videos
- White interior of the cell, illuminated by LED for maximum visibility of the displayed product
- Unique and original "Pull" design of the delivery bin

## MAXIMUM CAPACITY AND FLEXIBILITY

- Up to 7 easily repositionable trays in the cell
- Price display: ETL (Electronic Tray Label) or price label (rolling price)
- More space between the end of the tray and the window: Soprano is able to dispense larger items or non-standard packaging, such as prepared dishes or salads
- Delivery bin with a larger opening

ELECTRONICS AND ENERGY CONSUMPTION

- The dispenser has achieved class C of the EU 50597 protocol
- High efficiency coolingunit with R290 technology
- Perfect cabin insulation (polyurethane foam)
- Electronics compatible with Newis solutions (Hi!, Breasy)
